

ms Pulse width semiconductor laser driver module

SKU:DOE20-10

Module is mainly used for pumping and driving 1535nm lasers, and the maximum current can reach 20A.

TECHNICAL PARAMETERS

Electric current	0 ~ 20A _
Pulse width	0 ~ 2.5ms adjustable
Repeat frequency	0 ~ 10Hz
Powered by	D C 5V
Power consumption	< 2W
Dimensions	30mmX20mmX10mm
Weight	<5g
